DRAGGY AND LOWER MARKETS

THE BETTER WEATHER STILL A BEARISH FACTOR.

The Crop Damage Reports Being Off- set by an unusually Big Yield of Wheat—Corn and Oats Lower in Sympathy.

CHICAGO: June 25.—Lack of speculative trade, recently created a heavy feeling in the wheat. It just closed 1/2c down and September left off to go lower. Corn lost 5/8c, and oats declined 3/8c. Pork advanced 5c, and lard 2/8c. Ribs are unchanged.

Wheat was strengthened at the start by the reports of damage to crops with which the mail on every commission house was loaded. English-cabins came a shade better, and there were quite a number of bad crop advices from the other side, among them a telegram from Broomhall saying that the weather in England was unsettled, the crop three weeks late, the growth rank and the crop outlook poor. Later the market succumbed to the dullness of speculative trade, and the general impression that since the crop at this time can't spare a lot to the market, other prices must be unmovable by, and still have enough left to make a bigger crop than was ever before gathered. The early advance was all lost and prices fell off under last night's close.

The remaining advices were good, and English-cabins and English-lard advanced 5c, while corn and oats declined 1/2c. The total exports of Indian corn from the United States were amount to 1,900,231 bushels, against 1,900,000 bushels in 1897.

The total exports of wheat from the United States and Canada in the fifty-one weeks since July 1 amounted to 160,736,000 bushels against 160,736,000 bushels a year ago. The total exports of flour from the United States in the same period were 2,311,000 bushels, against 2,311,000 bushels in 1897.

Yesterdays' clearances for export at the four Atlantic ports were: Boston, 47,000 bushels; New York, 47,000 bushels; Liverpool, 47,000 bushels, and Calcutta, 47,000 bushels.

The total exports of wheat from the United States and Canada in the fifty-one weeks since July 1 amounted to 160,736,000 bushels against 160,736,000 bushels a year ago.
